SYSTEM NEXA 2

Are you ready to
make your everyday
life a bit smarter?

Do you want a home
that's smart, easy,
and always available?

Then System Nexa 2
is what you need!

Always available, wherever you are

As long as you have internet, you're in control. With our app, you can manage everything from lights to outlets, whether you're relaxing on the couch or out on an adventure.

Super easy to get started

Download the Nexa Home app and connect to your Wi-Fi. The receivers will appear in the app once they are powered on. Follow the instructions in the app, and the installation is complete!

Share with your family and friends

You can share your home with anyone you like. The person only needs to download the Nexa Home app and wait for your invitation. Regardless of who controls it, you can always see the current status in the app.

App, button, voice, or motion – the choice is yours!

APP CONTROL (Wi-Fi)

Your smartphone is your remote control. Manage your lights, devices, and schedules directly from your mobile, no matter where you are.

REMOTE CONTROL

Use our System Nexa remotes if you prefer to keep it simple and just press a button. Smart!

VOICE CONTROL

Talk to your home via Google Assistant. Use your voice to control everything from lights to electronics. Perfect for when you want your hands free

Psst! We know security is important. That's why all your data stays in Sweden, with servers located nearby for faster and safer handling.

SENSORS

Automate your home with motion. Turn lights on when you enter a room and off when you leave, using System Nexa motion detectors.

SCHEDULES & TIMERS

Use schedules to automatically manage devices at a specific time or based on sunrise and sunset. Timers let you count down to when a receiver automatically turns off or on.

VACATION MODE

Turns lights on and off randomly to simulate presence even when you're away.
